PRODUCT FEATURES

VERSATILE USE
The table is ideal as an individual workstation and perfect for training courses, conferences, schools or universities etc.

FOLDABLE TAPLE TOP
Thanks to the intelligent and maintenance-free folding table adapter, the table top can be tilted by 90°, allowing the tables to be stacked.

AMPLE LEGROOM
With ample legroom, the Basic One provides maximum comfort.

MOBILE AND FLEXIBLE
The Basic One can be easily moved by tilting in the front, while the levelling glides at the rear allow stable adjustment to the floor.

SPACE-SAVING STORAGE
The folding table frame can be easily stacked, enabling an efficient and space-saving storage.

HIGH-QUALITY MATERIALS
Made from premium steel and recyclable plastic, the table offers a stable and durable construction.
