PRODUCT FEATURES

ELEGANT DESIGN AND ROBUSTNESS

The Tip Top 710 table frame stands out with its high-quality craftmanship. The special feature is the table foot, made from glass-fibre reinforced and recyclable plastic.

MOBILITY AND ADAPTIBILITY

Thanks to the four lockable swivel casters, the frame can be moved almost effortlessly. Its adapability is evident in the adjustable table widths and depths.

VERSATILE FOR MODERN WORKSPACES

Perfect for modern offices, conferences and training rooms, the Tip Top 710 table frame offers flexible work surfaces for meetings, seminars and team projects. It creates an inspiring environment for creative collaboration.

EASY HANDLING WITH FOLDING MECHANISM

Thanks to the intelligent folding mechanism, the frame can be stacked in a space-saving manner. This not only saves time but also allows for easy handling by anyone.
